

GRAVES COUNTY BOARD OF EDUCATION

2290 State Route 121 North • Mayfield, KY 42066

Phone: (270) 328/674-2656 • Fax: (270) 328/674-1561

The Graves County School district has developed a process to report positive COVID cases in our schools to our students, staff, families, and community. It is our desire to be as transparent as possible in dealing with these situations while protecting the privacy of the protected individuals.

In cooperation with the local health department, contact tracing will begin immediately after notification of a positive case. Individuals who may have a high risk exposure to the positive individual will be notified by a personal phone call from the school, health department, or both entities.

Any school that experiences a positive case will notify all students enrolled with an All Call from Sarah Wilson, the District Health Coordinator, that will inform our students and families that someone in the school community has tested positive for the virus. Notification of positive cases from our virtual learning community will not be part of this process, but will be reported in our total active cases for the school and district.

All active cases will be reported on a dashboard located on the district website which will be updated daily. Additional information can also be found on the Kentucky Department of Public Health's webpage where the K-12 School Public Health Report is updated daily.

We continue to appreciate your patience and support in the ever changing academic environment in which we are currently working. Graves County Schools are dedicated to keeping their stakeholders informed and protecting the safety and welfare of our school community.
